#### OFFICERS

Honorary President	Rev. A. E. Hayes
President	D. L. Doane
Vice-Presidents	A. R. Kitto, F. M. Anderson

#### DIRECTORS

Mrs. A. Larson, Messrs. W. D. Allen, M. Brown, E. J. Charters, E. G. Gossett, D. C. Jones, F. A. Kothlow, John Miller, E. E. McIntosh, E. G. McPherson, E. R. Finckh.  
Secretary-Treasurer J. A. Lindsay

#### NEW CHOIR LEADER APPOINTED

Since the resignation of Mrs. Belle Embree as leader of the Vulcan Church choir some months ago the members of that organization have been without a leader, but notwithstanding this drawback they have clung together and got along in a sort of a way with the hope that some day a new leader would appear and take charge. In the meantime, Mr. N. B. Wilson, one of the oldest members, did his best to fill the vacancy and as a result of his untiring efforts the choir plodded along, several new voices were obtained and with a spirit of enthusiasm prevailing at all times, a great deal was accomplished by this little band of willing workers and the anthems and solos rendered at each evening service has been thoroughly enjoyed and appreciated by both visitors and congregation.

A short time ago, Mrs. M. Gooch, who was then a new arrival in town, was prevailed upon to take the position of organist and so well did she perform her duties and improve the choir that the members saw in her a leader of exceptional talent and after consultation, this position was offered and accepted by her and finally approved by the Board of Managers of the Church at a meeting held on Friday evening, January 14th and from now on both the members and congregation will get the benefit of her long experience in this line of work. Mrs. Gooch was for some time vocal teacher at the Margaret College, Kentucky, and also pianoforte teacher at the North Western University.

The choir at the present time consists of sixteen voices, but it is felt that this number can be greatly augmented by a number of well known singers in town to great advantage and it is now the purpose of the executive committee to round up as many new members as possible to make the many musical events planned for the near future the success they should be and this can only be accomplished and as this article will be read by the majority of these artists we hope that it will act as a personal invitation to join in the good work.

At a meeting of the choir held on Friday evening last a great deal of important business was discussed and approved among which was the advisability of holding a service of song in the near future. It was decided to hold one and preparations are now under way for this event to be held on Sunday evening, February 5th. The program will consist of anthems and quartette work by the adult choir assisted by the children's choir, further particulars of which will be announced later. The election of officers for the ensuing year also took place and the following members were elected to office:

Leader—Mrs. Marshall Gooch.

President—Mr. N. B. Wilson (re-elected).

Vice-President—Mrs. F. L. Simington.

Secretary—Miss C. Davis.

A cordial invitation is extended to anyone wishing to join the choir and it is to be hoped that a large number will avail themselves of the opportunity and join in the practice to be held in the church on Thursday evening next at 8 o'clock.

#### THE SOLDIER SETTLEMENT BOARD

The Home Branch of the Soldier Settlement Board is having a series of Short Courses for soldier settlers' wives. The centres for these are Grand Prairie, Peace River, Edmonton, Red Deer, Calgary and Lethbridge.

A splendid programme of lectures and demonstrations will be given by the Extension Dept. of the University of Alberta, Dept. of Public Health and the Women's Institutes.

In each city, the women's organizations are billeting and arranging social gatherings for the women who attend the course.

Although the course is arranged especially for the wives of soldier settlers, yet the lectures are entirely open to the public.

The course for these in the Vulcan district is in Lethbridge, February 18 to 26.

Further information and application forms may be obtained from Miss Fern Hottel, Director Home Branch, Calgary, Alberta.

#### POULTRY NEWS

The above cut represents the cup donated by the Canadian Bank of Commerce, to be competed for at the Poultry Show for the best pullet raised in the district; the Bank of Hamilton has donated a similar cup for the best cockerel raised in the district. The banks, through these trophies, show the interest they are taking in better poultry, for good young stock is the best foundation for better flocks. The council of Vulcan, by its presentation of a cup for the best pen in the commercial class is emphasizing what the Poultry association is aiming at, the betterment of the poultry industry here, for the best flock for a farmer is the flock that produces the eggs and the commercial class is judged by type and egg production test the council show their opinion of what the best bird is. The cup given by P. Burns & Company for the best pen of Barred Plymouth Rocks we hope will be the forerunner of other cups, one for each of the breeds most favored by farmers. The Jacques cup for the best bird in the show and the Lindsay shield for the best display creates a friendly rivalry among the exponents of the different breeds.

In our advertising columns will be seen the announcement of the 2nd Annual Show. This advertisement has been donated by the firms whose names appear there, each of them thus showing the interest they have in the association aims more birds—better birds for the good of the district.

In another place we publish the complete Prize List, a copy of which has been already mailed to members.

In addition to the honors that came to Vulcan as announced in last issue by the success of Mr. E. E. McIntosh and Mrs. J. A. Lindsay, at Edmonton, Mr. E. E. McIntosh getting first for his pen of Buff Orpingtons in the Orpington class and Mrs. Lindsay first in the Wyandottes with her White Wyandottes, both in the Commercial Class, McIntosh had 3rd in the Exhibition class for his fine Buff Orpington pullet. The journey to Edmonton had somewhat upset her, else she would have been placed higher but we hope to see her in her usual form at our show. Mrs. Lindsay secured the silver cup donated by the Dominion Poultry Representative, Mr. G. M. Cormie, for the best pen in the whole Commercial Class.

#### MORE RESULTS FOR COMMUNITY CLUB

The efforts of the Vulcan Community Club have again been successful in their efforts in trying to obtain an experimental farm for the Vulcan district which will be of great benefit for the farmers. Mr. C. Colwell, the secretary, has received the following communication from the department of agriculture, Ottawa, which speaks for itself and which we take pleasure in re-producing:

Deputy Minister's Office,  
Ottawa.

Jan. 18th, 1921.

Dear Sir,—With regard to your letter of the 5th inst., addressed to the minister, I would say that our chief Supervisor of Illustration Stations is being instructed to look into the possibility of making arrangements for illustration work in the Vulcan district.

Yours very truly,

J. H. GRISDALE,

Deputy Minister.

#### HOCKEY CLUB DANCE

The first annual dance of the Vulcan Hockey Club held on Friday, January 21st at the I.O.O.F. Hall was a very enjoyable event although somewhat disappointing from a financial point of view. The reason of this was the expense of the excellent orchestra provided for the occasion and the fact that not enough was charged for admission and it is safe to say that not one person would have objected to paying another 50c extra for the swell time had. The orchestra, which was a new one to Vulcan, was, without doubt the best that has played in the hall, and consisted of four pieces—saxophone, violin, piano and drums. Although the number present was not very large at first the crowd gradually grew until the hall was just comfortably filled. At midnight the supper waltz was announced and this over everyone adjourned downstairs to a delightful supper served by Mr. A. Morton. Sandwiches, fruit, salads, and coffee, etc., became the chief items of interest for awhile and everybody did full justice to the good things. Supper over thoughts were once more turned to dancing and this was resumed until early morning by which time all had had their fill and was quite satisfied with the evening's enjoyment. The hockey boys are putting on another dance on February 4th with the same orchestra in attendance and another such enjoyable time is promised.

#### COMMUNITY CLUB LUNCHEON

Don't forget the Luncheon to be held in the banqueting rooms of the Oddfellows Hall on Friday evening, January 28th, at 7.30 p.m.

Rev. (Capt.) A. H. Denoon of Lethbridge, will speak. He is one of the best known platform men in the province and no doubt he will have something good in store for Vulcanites.

Tickets, including lunch, are 75c each, and are now on sale by the following men: Messrs. Butchart, Charters, Colwell, Lindsay, Torgerson, Spooner, F. A. Elves.

It is especially requested that every guest be there at or before 7.30.

Secure your tickets early, so that the caterer will know how many to provide for.

#### VULCAN VS. BRANT

The Vulcan hockey team succeeded in winning their first match of the season when they won from Brant on Saturday evening last on the latter's rink. The boys were accompanied to the scene of hostilities by a crowd of about fifty rooters and the noise and encouragement received from them went a long way in helping the boys in their victory. The local team was up against a strong aggregation but despite the strenuous efforts of the opposing team to put it over on them they were out played by the local boys in every way and Captain Simington is to be congratulated in having such good material to meet any and all comers. After a very strenuous and will fought game the Vulcan team won by a score of 4-1.

#### RED CROSS NEWS

The Red Cross checker players gathered at the home of R. A. Love on Thursday evening and had a very enjoyable time. They came out about even in the games.

Mrs. J. M. Love entertained a few neighbors on Tuesday evening last and a very enjoyable time was had in playing cards and other games.

The dance which was held in the school on Friday evening last was a very good one and all present enjoyed themselves to the limit. The boxes did not go for more than what they were worth but there was a good little sum raised which will be used for the ball team the coming season. We wish to thank Mr. C. C. Rebbe for the part he took as auctioneer. He sure tried to realize better prices for the boxes but could not do so for the lack of bidders.

The Red Cross district is going to turn out some professional boxers in the near future. A set of gloves have been ordered and all the young men of the district are eager to get them on when they arrive.

Mr. Grundy and W. Snow went to Calgary last Friday to take in the Winter Bonspiel.

#### LOCAL ITEMS

Mr. Art Neiman left for Calgary on Saturday where he spent the week end visiting with relatives and friends.

Mr. Bob Dodds has been re-appointed a Commissioner of Oaths for the Province of Alberta.

Mr. and Mrs. Gilmore, of Calgary, who have been visiting relatives in Vulcan and Reid Hill for several weeks past returned to their home on Saturday.

E. M. Hollister, of Calgary, who has been on a business visit to Washington, stopped over in Vulcan on Friday and Saturday on his return trip.

Look at the label on your paper and if in arrears in your subscription please call and renew and save us the trouble and extra expense of sending out bills.

Mr. A. Stein, of Hearnleigh, who has been in Edmonton the past week attending the U.F.A. convention, returned home on Monday last.

A meeting of the Ladies' Aid of Vulcan Church will be held at the home of Mrs. Jennejohn on Thursday, January 27th, at 3.30 o'clock. A good attendance is requested. All ladies welcome.

During the absence of Mr. R. E. House on his vacation the office of the Marquis Municipality will be in charge of Mrs. Helen Dexter.

An ice carnival will be held at the rink, Vulcan, on Thursday, February 3rd, under the auspices of the Church of Women's Auxiliary, in aid of the China Famine fund. Prizes will be given for the best dressed gentleman, lady and boy and girl, under the age of sixteen. See bills for further particulars.

Don't forget the band concert in the Opera House on Sunday evening next after church services. A good program of music will be rendered. Collection at the door.

We have a buyer for improved half section within 8 or 9 miles of Vulcan. Buyer has \$3,000 cash and good outfit. Let us have your listings.—Hagerman & Co.

Mr. R. E. House, Secretary-Treasurer of the Marquis Municipality, left on Monday for Vancouver, where he will spend three or four weeks enjoying a well earned vacation.

Choir practice for the Adult Choir of the Vulcan Church will be held on Thursday evening instead of Friday. A good turn out of members is requested as some special work is to be begun for the service of song to be held on Sunday, February 5th.

Some idea of the tremendous amount of money realized from this year's crop in the Vulcan district may be taken from the fact that Secretary A. J. Flood, of the Municipality of Royal, No. 158, has collected over \$175,000.00 this fall for taxes and seed grain.

Mr. J. C. Dance, who was visiting here with his daughter, Mrs. Fred Elves some time ago and then proceeded to Vancouver, is again spending a few days in town before returning to his home in the east. While at the coast city Mr. Dance had the misfortune to be knocked down by an automobile, receiving injuries which necessitated his removal to a hospital, where he spent several weeks. We are pleased to state, however, that he is rapidly recovering and will soon be his old self again.

A very enjoyable event took place on Wednesday, January 19th at the home of Mrs. T. B. LeBow, when the girls of the Sunday school held a tea in aid of the Sunday School building fund. The event was a huge success both financially and socially and the sandwiches, cake and tea that were served at various small tables, was thoroughly enjoyed by all present. Miss Tingle was very popular as a reader of fortunes as seen through the leaves of a tea cup and as is usual with this class of entertainment, received a large patronage. The candy booth was conducted by the girls and the revenue from the two sources amounted to the handsome sum of \$27.00.

## Pickles And Sauces

We have a New assortment of Pickles and Sauces. Delicious on Meats of all kinds.

Mustard Pickles, mixed quart. jars, each	65c.
Plain Mixed Pickles, quart jars, each	65c.
Sweet Mixed Pickles, quart jars, each	75c.
Heinz's Tomato Chutney, per bottle	50c.

### HIGH LAND, LOW GRAIN PRICES

Ponoka Herald:—A letter was received the other day by a townsman from his brother in Exeter, Nebraska, which contained rather interesting news regarding prices ruling there. Hogs were selling at \$7.50, beef 6c., oats 30c., and land at from \$200 to \$300 per acre. Business is very bad, in comparison with these prices our

local conditions are not too bad, and there is much to be thankful for.

L. S. Breadner, of the Canada Air Board, was in Edmonton last week making investigation of the monoplane that will be used in connection with the monoplane service that will be established between Edmonton and Fort Norman.

## Vulcan Advocate

J. DUFFIELD, Managing Editor  
Published every Wednesday in the heart of a wonderfully rich farming and ranching district.

Advertising Rates on Application  
All copy for advertisements must be in this office at not later than 6 p.m. on Monday if they are to appear in the issue of that week.

General Commercial Printing

### TREE PLANTING AND WHAT IT WILL DO

In last week's issue of this paper there was reproduced a letter written to the Community Club, by the Forestry Department, Nursery Branch at Indian Head, in connection with young trees available by farmers from the Department for the planting of wind breaks, etc.

The contents of this letter should be thoroughly perused and given the earnest attention of every farmer in this district. Perhaps very few are alive to the possibilities of such a scheme carried out on a gigantic scale, as it should be in the Vulcan district. There is no question that if an extensive program of tree planting were to be carried out here, the appearance of the country would be transformed; it would have the effect of drawing more rain; it would, in a great measure, stop soil drifting, and would prevent weeds and weed seeds from being scattered all over the district, besides providing shelter for stock, and making the country a more attractive place to live in.

The soil in the Vulcan district is especially adapted for growing certain kinds of trees. The government is willing and ready to supply 5,000,000 young trees in 1922. All orders must be in their hands at the above Department by March 1st, 1921, to insure next year's delivery, and if every farmer here will take this matter seriously, ordering his trees in plenty of time, and giving them the proper care and attention, this country would easily be transformed within the next five years. We have the soil—the finest on earth—but we must be willing to give some little time and attention in the assisting of nature in the performance of her duties.

The officials of the Community Club are ready and willing to give any assistance in their power to get this scheme in motion, and if everyone would do their little part there is no reason why surprising results should not be attained within five years, and the increased value of the land would repay the slight effort required, ten times over. Don't put this business aside but act NOW, before some other district get in ahead of us and orders the whole supply. The trees are free, the applicant paying the freight from Indian Head to destination.

### CAUSE OF BUSINESS FAILURES

During the past few months several of our merchants have conducted sales and in this way they succeeded in inducing farmers from outside districts to come and trade in our town, where they could buy goods they wanted at an advantage. With large city firms advertising in the daily papers the local merchant has the one alternative to combat this by advertising the price of his goods in the local paper and in this way he secures a new customer who will remain a good customer so long as he gets accommodation and courteous service. It is in this way that advertising counts, when trade is drawn from another community that formerly traded in the nearest town to them, but whose merchants did not advertise. It is not to support the local paper that the merchant advertises—that is the wide-awake merchant. It is to further his own interests, to extend his business, increase his trade, draw the other fellow into town and show him that for goods, quality and price, considered, he is in a position to supply that man's demands as well as possibly better than the departmental store, or anyone else in any other town. In Southern Alberta, this past year end, 23 business places went broke. In looking through Bradstreet's Commercial Agency, which is an unbiased authority, we find that 84 per cent. of the business failures in Canada in the past year occurred among firms that did not advertise. Bradstreet's compiled its information from statistics, not guesswork. The importance of advertising as a business element have been regarded as vital by this great commercial agency, else it would not have wasted the time of hundreds of trained men throughout the country collecting and tabulating this information. Bradstreet's thus points the way to success.

## A TRADE TONIC

Last year the cry was for more production. It was the only way to bring down the cost of living. Whether it was that we got the increased production, or that consumers stopped buying and thus production caught up—prices are coming down in many lines, and production is now deliberately curtailed.

Those who may have succeeded in increasing their output, and who thereby caught up with the demand, must have realized that production alone will not produce prosperity. Before a profit can be realized the goods must be sold.

When the market stagnates, for any reason, all other business activities are curtailed. They cannot operate profitably except through the ultimate sale of the product.

In view of this, it is not astonishing to find firms curtailing their selling effort. When it becomes difficult to sell, their first step is to cut out the advertising, next the salesmen are called in, and employees let out. When the market falls they turn off the power that creates and supports it. How ridiculous!

Advertising has proved itself to be the most dependable and economic means of creating and sustaining a demand for all commodities. When selling becomes difficult it may be harder for the advertising to produce results. Then more and better advertising is required.

It will be evident to any who investigate that, with few exceptions, the goods which are hardest to sell today are the never-advertised varieties. Established branded lines continue to find a considerable market, particularly where the advertising support is kept up.

The time to advertise is when you want more orders.—From Marketing.

### AN EMINENTLY FAIR TAX

At a recent session of the Calgary city council it was decided by a vote of seven to four that if no provision already exists in the city's charter which will permit the institution of a "service tax," steps should be taken to receive authorization from the legislature for the imposition of this. A minimum of \$5 and a maximum of \$10 are proposed. These may be deducted from taxes payable by any citizen on account of real estate or business taxes. With the exception of widows supporting one or more children under the age of eighteen, the service tax is to be paid by all over twenty-one years of age, male and female, who have lived in the city for three months prior to the first of July in each year. Alderman Huggill, who has fathered the proposal, estimates that it will affect 11,500 people and that it will bring in not far from \$100,000. Those who have not paid will be disfranchised.

The Edmonton Journal referring to this adds that "Despite all that has been said about this being an 'antiquated' form of taxation, it ought to appeal to most people as an eminently fair one. The impost is not a heavy one and all who are receiving services from a municipality should pay their proper share of the cost of providing these. As things are, there are many who are escaping almost entirely."

### GOVERNMENT POCKETS LOSS

Hay stored at the exhibition grounds and owned by the provincial government is in demand. J. A. Weir, provincial government representative, here on agricultural matters, said this morning he sold a car of hay last week to a farmer at Kipp.

This hay has been stored since last spring and some of it cost the government \$38 a ton I.O.B. Quebec. This would run it well up to fifty dollars a ton. Some of the hay stored there did not cost more than thirty or \$32 landed in Lethbridge. The government is asking \$25 a ton for this hay and is accepting the loss.—Lethbridge Herald.

This country is all right. If prices drop in some things perhaps they ought to; if they should not then they will come back again. The period of readjustment is on. Just now panic spells ruin. A few more months should see a more settled state of affairs.

Throughout the province the U.F.W.A. has fostered a more neighborly spirit among the people of the district and has raised the standard of the community and in this connection they have made a valuable contribution not only to rural life but to the life of the nation.

Canada depends not on a cultured class alone but on the average intelligence of all its people. We study politics, economics, social welfare, and we take on faith all news regarding education," so remarked one of the farm women at their recent convention held at Edmonton last week.

### RECORD CROP OF SPUDS

According to the final estimate by the department of agriculture the total white potato crop of the country this year is 430,458,000 bushels, one of the largest crops on record and exceeding the 1919 crop by over 72,000,

000 bushels when 357,901,000 were produced. The largest crop in recent years was in 1917 when the final estimate showed 442,108,000 bushels.

Thirty-six cases of whiskey were seized in Calgary recently by the city police.

## PRIZE LIST

## Vulcan Poultry and Pet Stock Association

SECOND ANNUAL SHOW  
I. O. O. F. HALL  
VULCAN  
FEBRUARY 10, 1921

## OFFICERS:

Honorary President Rev. A. E. Hayes  
President D. L. Doane  
Vice Presidents: A. R. Kitto, F. M. Anderson  
Secretary-Treasurer J. A. Lindsay

## DIRECTORS:

Mrs. A. Larson, Messrs. W. D. Allan, H. Brown, E. J. Charters, E. R. Finckh, E. G. Gossett, D. C. Jones, F. A. Kothlow, John Miller, E. E. McIntosh, E. G. McPherson.  
Judges:—P. J. Timms, Calgary; Joseph Shackleton, Edmonton.

## RULES AND REGULATIONS:

All entries must reach the Secretary before 6 p.m. of Saturday, the 5th day of February, 1921, and must be on blanks provided by the Secretary.

No entrance fee for members of the Association. Four entries necessary for 3rd prize to be given, three entries for 2nd, which prize will be awarded only on merit.

A novice is one who, or any member of whose family, has never taken a prize for the breed shown, at any previous show anywhere.

All exhibits must be in the Hall not later than 10 a.m. of the day of the Show, and will be accepted at the rear door.

Judging will begin at 12 o'clock.

No birds permitted to be taken from the show room before 9 p.m. of the day of the show.

All exhibits must be the bona fide property of the exhibitor.

Birds shown in pen classes will not be allowed in single or vice versa.

Exhibition coops will be provided at a rental of 50c. each, if application is made when making entry.

If for any reason there is a shortage of funds, prizes will be paid pro rata.

The Directors reserve to themselves the right to accept or decline any entry.

Whilst every care will be given the birds, each exhibit its at the owners risk.

Exhibitors agree to abide by the rules of the Association.

N.B.—Strict attention to these rules will save unnecessary trouble as they will be strictly enforced.

## SINGLE BIRDS

Each class in four sections. Section 1, Cock; Section 2, Hen; Section 3, Cockerel; Section 4, Pullet. Three prizes in each section: 1st, \$1.00; 2nd, 75c.; 3rd, 50c.

## American

- 1 Javah
- 2 Plymouth Rocks, Barred.

Donor not competing, and \$1.00 cash each for the Best White Wyandotte Cock, Hen, Cockerel and Pullet shown by a novice, and 1 setting of eggs for the Best Pair (male and female) White Wyandottes, shown by a novice.

J. A. Lindsay offers a consolation prize of one year's subscription to the Canadian Poultry Review, value \$1.00, to the novice who has not secured a prize at this show in the Plymouth Rock, Rhode Island Red, Wyandotte, Orpington and Leghorn classes.

Beaver Lumber Co., per J. Dewie, offers \$5.00 cash for Best Bird in Show.

## CAUSE MANY FIRES

Spontaneous combustion probably causes more fires than are attributed to it, from the fact that in order to determine whether a fire originates in this manner or not, it must necessarily be detected at its very commencement and before the flames have destroyed the evidence of its cause.

It is only within recent years that spontaneous combustion has been reasonably understood. The investigation and explanation of scientific men, coupled with the efforts of fire underwriters in collecting and publishing the causes of fires, has led to the acceptance by the general public of the fact that it is possible to ignite many substances without the application of

fire, heat or flame, merely by the chemical action of the materials themselves.

Spontaneous combustion is generally due to the absorption of oxygen from the atmosphere by various substances which have an affinity for it.

The rapid drying of certain kinds of oils, especially vegetable oils, like linseed, and the drying of moist charcoal, results in the rapid absorption of oxygen to the extent of ignition.

Oily waste, which has been used to wipe off machinery, should never be thrown carelessly into a corner, but should be kept in a metal container and removed from the premises daily.

Householders should exercise great care in connection with cloths which have been used for polishing furniture

and hardware floors.

Sawdust, mixed with linseed oil, will ignite in a few hours.

Cotton waste saturated with linseed oil will burn in from two to ten hours. Most vegetable substances, as well as oatmeal or bran, when packed together in a confined place, without being sufficiently dry, undergo fermentation or heating, and are liable to take fire.

It is well known that hay, when stored away too green or wet, is very liable to set barns on fire by the heat generated in fermentation. It is claimed that if the mow is pierced with holes to permit escape of the gases and heat generated, no combustion can take place.

Fires have been known to occur

from the heat of the sun concentrated upon light, combustible materials, such as shavings, oily cotton, or sawdust, through imperfect panes of window glass, which serve the purpose of a "burning lens."

Keep your premises clean. Do not allow rubbish to accumulate in dark corners, closets or concealed places. Help keep down the cost of your insurance premium.

## SOME TIMELY TRUTHS

Get acquainted with your neighbor—you might like him.

Influence is what you think you have until you try to use it.

A bow-legged girl may be healthy

but she's in bad shape.

Be it ever so homely there's no face like your own.

Even if you have trouble to burn—make light of it.

Use your head! Even the fellow who invented spaghetti used to noodle.

Advice, like castor oil, is easy to give, but hard to take.

Never count your chickens while your wife is around.

The rich man usually has a twin six and the poor man six twins.

When we think we can make both ends meet—someone moves the ends.

Many a man is a success with hens but a failure with chickens.

Laugh and the world laughs with you. Snore and you sleep alone.

Kill time and you will mourn, the

corpse.

Don't put off until tomorrow the meanness you can cut out to-day.

Use the spur of the moment if you would make the hours go fast.

Kill time by working it to death.

It is not Christianity that is a failure, it is a lack of it.

It takes 400 cars of white paper every year to print the New York telephone directory.

With the United States and Japan competing in a naval program, the "naval race," as it is called, it distinctly a white and yellow race.

High River has been selected as the site for the landing station and aerodrome for the new trans-Canada air route. The city of Calgary made every effort to land this plan, but High River got it despite their frantic efforts.

The Sydney correspondent of the Daily Telegraph reports that Australia has had a record harvest. New South Wales alone, it is estimated, has a wheat crop of 55,000,000 bushels of which forty million will be available for export.

And now the German spy myth has been exploded. A book issued in England with official sanction asserts that there were few spies, and only two of them of first-class intelligence. The author doubts if in the four years of the struggle Germany got a single piece of information out of England that it was able to put to practical use.

Canadian tobacco growers want a tariff war waged by raising the price of duty on American tobaccos, as a means of retaliation for the duty imposed on the Canadian article going into the States. This is a puff of resentment which those who are addicted to their own brand of tobacco will trust will end in smoke.

More than 51 per cent. of the people live in cities and the percentage of urban population is increasing each year. This is wrong and the back to the land movement should be boosted.

About 150 tons of valuable parliamentary records were sold or disposed of by government employees and the matter is being investigated.

The total vote cast by socialists in the recent election in the United States was not more than 900,000. The one in 1916 was 901,873.

## ONE KIND OF GIRL

The girls of today are not all selfish or thoughtless, but there is one type that is all too common who does not play the game. Her mother is doing from week-end to week-end, the same monotonous tasks, sweeping, dusting, cooking; cooking, dusting, sweeping; getting a little greyer and a little more bent. Her girl comes in from school or college bringing the aggressiveness, and buoyancy of youth with her, greets her mother with, "Mother, is dinner ready, I am in a hurry?" or "Mother is my pink gingham laundered?" or "Hurry mother and help me or I will miss the show." Never a word of inquiry or thought of helping the uncomplaining burden bearer. She is just a mother, always there for her special benefit. Mother just smiles and shakes her head when anyone suggests that her girl might help her a little, says she has no studies and she is young.

Girls, try and look at life from mother's point of view, bring a little of that youthful breeziness into her day, make her sit down for a change while you clear away the dishes. Put your young shoulders to the household wheel for a short time; make her a party to your confidences and plans; she was young once and knows the horizon with which youth is bounded. "Much evil is wrought for want of thought as well as want of heart." Try to put yourself in mother's place, look at life from her point of view and because you love her it will be no effort for her sake, and the added brightness and break in the monotony of the day's work will bring lustre to her eyes and spring to the feet that so willingly run on love's errands.

## RENT BASED ON NUMBER OF CHILDREN

In St. Catharines, Ontario, the city council guaranteed 80 per cent. of the bonds of a company formed to erect twenty dwelling houses, to cost from \$3,000 to \$4,000 each, \$500 of which will be paid down by the purchasers. In Windsor, in the same province, the city council purchased one hundred lots on which to build houses to solve the congestion. The city of St. Johns, Quebec, borrowed from the government the sum of \$150,000 to assist in financing a civic housing scheme, and building operations were extensive during the summer. Fredericton, the New Brunswick capital, obtained the loan of \$200,000 from the provincial government's Better Housing Fund to construct dwellings for workmen, and in the past season has done much to relieve the congestion there.

A novel housing project was formulated by a city councillor of Woodstock, Ontario, who erected twenty-five houses and grade the rental according to the number of children in the incoming families. The larger the offspring the lower the rent. Agricultural and Industrial Progress in Canada.

## FURS ON DOWN GRADE

If the fur sale which was held in Vancouver last week is any indication of how the others sales are to go, there is a very poor look-out for the trappers this year. However, there is no reason to believe but that there will be a keener demand at the New York sale, which opens next week, and at whatever price the furs are taken, it will to some extent make a commercial valuation on the furs.

At the coast there were very few lots which were held on which there was a reserve bid, being held by the trappers and dealers for some future market. The lots on which there was no reserve brought very modest prices. Coast marten sold around \$3.80, while the last year's interior marten sold around \$9. Beaver was a limited sale at about \$10. The muskrats which were offered brought 40c. @ 50c. There were a few silver fox skins offered, which, however, did not come up to what the holders reserved them at.

## PREDICTS HEAVY RAINS

The Lethbridge Herald interviewed a weather shark of that city who says that according to a chart which has been carefully prepared, and if there is anything to a cycle of time, Southern Alberta is due for a good rainfall this year. That is to say it will reach the high peak as demonstrated in the consecutive period of five years dating from 1906.

In 1906, according to the chart, the rainfall was the highest compared to the three previous years. There was a decided drop from the 1906 record in the four years following until 1911, five years after 1906. In 1906 the rainfall went to 22 inches, dropped to 16 inches in 1907, rose to nearly 17 inches in 1908, and went down to 9 inches in 1910, going up to 21 inches in 1911. There is pretty well the same experience in the four years following 1911, with a rise in the rainfall to 24 inches in 1916, the

fifth year of the cycle. In the years following the rainfall went down, again. The question is will the time history of rainfall repeat itself when the five year cycle completes itself this year. Will the rainfall reach and go over the 20 inches mark? If there is anything in weather cycles or in the Rule of Three this should prove the case, and Southern Alberta is due for a wet year this year.

It might be mentioned that, according to a well known British astronomer, a comet will in its orbit come in contact with the earth in June, about the 23rd. It may be surmised that the impact will break up the clouds, and it will act in the capacity of the much talked-of rainmaker. Whatever else it may be, at any rate in regard to agua pura the chances are strongly in favor of 1921 being a wet year in Southern Alberta.

## CHINESE EGGS FOR N. Y.

Chinese eggs in large numbers have been passing through Calgary this week billed to New York. In one shipment there was 14,000 cases and another large shipment is going through soon. The first shipment which went through was by special train, made up of 28 cars, each car containing 500 cases. It is expected there will be 10 cars required to carry the next shipment.

One of the first deals in leases which has been made by Calgary men interested in the Fort Norman field was put through this week, when 1920 acres within three miles of the Imperial well was sold for \$25,000.

Six chronic patients will be removed from Calgary Hospital to the Macleod Hospital. The latter agree to care for such patients at \$1.25 per day while it costs the Calgary Hospital over \$3 per day for such patients.

Many samples of grain shown at local fairs are said to be better than that shown at the Chicago International Show.

## PRESS BARRED FROM MEETINGS OF BOARD

Barring the press from its sessions, the conciliation board, which is probing the dispute between President D. B. Hanna, of the Canadian National Railway and the employees of the system in regard to the now famous "no politics" order got down to work at the city hall at Ottawa on Monday morning.

## PRINCE'S CATTLE WINTERING WELL

W. L. Carlyle, manager of the ranches of the Prince of Wales and the Earl of Minto, told the press today that the imported cattle, horses and sheep with which these properties were stocked were wintering excellently and that the animals undoubtedly were flourishing in their new surroundings. The sheep were living in the open and were fat and healthy. The Prince's Shorthorn cattle were on the range in the daytime but were sheltered at night while his Dartmoor ponies were thriving with but very little need of attention.

Saskatoon has given to the world what is claimed to be a new variety of vegetable—the seedless tomato. This has been produced as the result of years of continuous experimentation by an expert local market garden-

## ONCE UPON A TIME STORY

Once upon a time the brilliant wit of the bar looked at the moon-faced farm hand and winked at his friends. "Have you ever been married?" he began. "Ye-es," stammered the farm hand, "onet." "Whom did you marry?" "A woman, sir." "Come, my dear man," cut in the witty lawyer, "Of course you married a woman. Did you ever hear of anyone marrying a man?" "Ye-es, sir. My sister did."

## ANOTHER LIBEL ON PAT

An amusing after-dinner story—which need not be taken too seriously—was related recently to Lord Beatty. According to his Lordship the lower-deck men in the days when he first joined the navy, were a very mixed lot. One day, said the gallant admiral, when the gun practice was in progress the cry of "man overboard" was raised. "Throw out two bouys," yelled the captain, and the new Irish sailor promptly flung over two boys who were walking on the deck. "What

in creation are you doing?" yelled the captain; "I meant the cork bouys." "Be-dad!" said Pat, "how was Oi to know whether they came from Cork or Tipperary?"

## A TIMELY TELEGRAM

"All well, twins. No time for more."

## NOT BIG BEN

"Hello, Ben, where you ben?" "Ben sick."

Once upon a time, according to Tit-Bits, a well-known philanthropist in East London gave a slum child's version of the story of Eden. She was sitting with other children on the curb outside a public-house in Shore-ditch, and her version of the story proceeded:

"Eve ses: 'Adam, 'ave a bite?' 'No,' ses Adam, 'I don't want a bite!' 'Garn!' ses Eve; 'go on, 'ave a bite!' 'I don't want a bite!' ses Adam." The child repeated this dialogue, her voice rising to a shrill shriek. "An' then Adam took a bite," she finished up. "An' the flamin' angel come along wiv 'is sword, an' 'e ses to 'em both: 'Nah, then—ah-side!'"

## CHURCH NEWS

You cannot spend your Sunday  
 evening better than attending church.  
 During the year attendance at church  
 fell off, but people are getting back  
 to former habits again. Last Sunday  
 evening, Rev. A. E. Hayes dealt with  
 the subject "The contribution of  
 science to religion." Science to-day  
 is not anti-Christian, said the minister,  
 but it is extra-Christianity. Science  
 has revealed the fact that man is in-  
 stinctively religious. This fact is  
 worth noting. The big defect in so-  
 cialism is that it neglects this valu-  
 able piece of modern discovery and  
 tries to build a system that neglects  
 the finest in man. Since man is na-  
 turally religious, the next thing is to  
 see that he get the best, for there is  
 a tremendous difference in the great  
 religious systems. The minister gave  
 various examples of this.

Christianity is the world's final re-  
 ligion. It can withstand the on-  
 slaughts of the severest investigation  
 and the fact that it has come through  
 the great test to which science has  
 subjected it this last year, proves its  
 vitality. That which is final is worth  
 studying, if we claim to be intelligent.  
 Further, Christianity centres around  
 the personality of Christ. There has  
 never been a second Jesus. By the  
 method of comparison all other lead-  
 ers take their place in the background.

Next Sunday evening Mr. Hayes  
 will follow on with these modern  
 themes, as they deal with every day  
 life. Plan your work so that when  
 Sunday comes you are not too tired to  
 take your place in a House of Wor-  
 ship.

The annual meeting of the Vulcan  
 Union Church will be held Tuesday,  
 January 31st, commencing at 8 o'clock.  
 This meeting will take the form of a  
 social. A short program will be given,  
 followed by light refreshments. The  
 old time meeting where six or  
 eight attend is a thing of the past.  
 Last year about fifty were present.  
 This year we look for double that and  
 more. The evening will be one of  
 good cheer and you are invited.

The Ladies' Aid of the Union  
 Church have called a meeting for  
 Thursday, January 27th at 3.30 at the  
 home of Mrs. Jennejohn. Begin the  
 New Year right by lending your sup-  
 port to this important work.

## WANT EXTENSION OF RAILWAY

Because twenty miles is thought to  
 be too far to ask farmers to haul  
 grain to market, if they are to be  
 kept contented in the country, a de-  
 legation appeared before the Calgary  
 Board of Trade on Saturday morning  
 asking its co-operation in inducing the  
 C.P.R. to extend the line that runs  
 from Lomond to Blackie, across to Al-  
 dersyde. So urgent is the necessity,  
 and because of the hardships many  
 farmers are undergoing, the delegates  
 are insisting that the C.P.R. do the  
 work this year.

G. C. Barnes, who headed the de-  
 legation, said that they have waited for  
 years for the road, and now it is found  
 that the C.P.R. intend to spend money  
 this year in the north, where settlers  
 have not been near so long as the  
 other district. D. C. Coleman has  
 promised the delegation an interview,  
 but as yet have received no notifica-  
 tion as to when this will be.

A petition has been signed by farm-  
 ers, showing they have real cause to  
 ask for the extension. The average  
 distance covered by these men in haul-  
 ing is a little more than 20 miles. The  
 number of acres under crop is aver-  
 aged at 500 each, and the bushels  
 raised amounted to 105,704. In the  
 district altogether, including that por-  
 tion not served by the road, two mil-  
 lion bushels have been hauled, and it  
 has cost these farmers \$400,000 to  
 haul to the nearest point.

The women also complain, as they  
 have to remain at home two days  
 while their men are away hauling,  
 and this is an added cost, as labor has  
 to be hired to do the work.

The board of trade is heartily en-  
 dorsing this legislation in their ob-  
 ject, as it is felt that this means much  
 to Calgary. They feel that twenty  
 miles is too far to ask farmers to haul  
 grain, and it is due to this country  
 from the C.P.R. to give service which  
 will enable farmers to stay here and  
 keep on producing. The delegation  
 expressed a strong wish to work with  
 the board of trade in this matter.

The delegation consisted of N. G.  
 Hall, Milo; W. F. Harvey, Milo; M.  
 H. Wood, Gleichen; and E. C. Barnes,  
 of Majorville.—Calgary Herald.

The Lethbridge Herald is authority  
 for the statement that three freight  
 cars loaded with whiskey was expect-  
 ed in that city for some of the thirsty  
 citizens before February first.

The value of actual construction  
 work in Western Canada during the  
 past year totalled \$71,185,100, as com-  
 pared with \$28,619,100 in 1919 and  
 19,634,900 in 1918.

## DAIRY INDUSTRY NEW \$34,000,000

The dairy industry of Alberta con-  
 tinued its steady advance during 1920.  
 The total value of the province's dairy  
 products reached \$34,000,000, a gain  
 of nearly two million and a half dol-  
 lars over the 1919 output. Part of  
 this gain was made up by the increas-  
 ed price obtained for these products  
 during 1920 as compared with the pre-  
 vious year. Butter, for instance sold  
 at the creameries at fifty-six and a  
 half cents a pound compared with the  
 average price of fifty-one and eighty-  
 seven cents a pound in 1919. The to-  
 tal production of creamery butter,  
 however, was increased from 11,822,-  
 890 pounds to 12,150,000 pounds last  
 year, a gain of more than a million  
 pounds. There was a slight falling off  
 in the output of cheese, 456,534 pounds  
 being manufactured in 1920 as com-  
 pared with 520,530 the previous year.

The growth of the dairy industry  
 in Alberta during the last two years  
 can fittingly be described as marvel-  
 lous. In 1910 the total value of all  
 milk products amounted to \$7,855,751  
 about one quarter of the value of the  
 1920 production. The output of cream-  
 ery butter has steadily grown from  
 3,010,755 pounds in 1912 to more than  
 four times this quantity in 1920.

Sir George Perley, Canadian High  
 Commissioner, is once more pressing  
 for the removal of embargo on Cana-  
 dian cattle into Britain.

## THE CASE IN A NUTSHELL

For the twelve months ending Nov.  
 30th we imported from the United  
 States \$927,000,000 worth of goods  
 and for the same period we sold to the  
 United States \$545,000,000 worth. Our  
 exports to the United States increas-  
 ed by \$200,000,000 over the twelve  
 months preceding, so that things are  
 getting worse instead of better. Now  
 do you wonder why our dollar is worth  
 only 85 cents in the United States?

## THE TRAGEDY OF IT

The latest issue of "Jack Canuck"  
 contains a cartoon entitled "Disaster  
 in Bruce County." It shows a Scotch-  
 man carrying a ladder and another  
 Scot afar off calling "For Goodness  
 Sake, hurry—Sandy's droonin' wi' a  
 the whiskey."

## TO CHURN OR SHIP

Glenview News, Edmonton Journal:  
 "The farmers now can surely afford  
 to serve butter at meal times in con-  
 sidering late quotations on newly-  
 made farm butter at 45c. a pound and  
 creamery butter at 60c. a pound. Why  
 the great difference in price between  
 the farm women's newly-made butter  
 and creamery butter? Do you think  
 this justifiable? And still should a  
 few of us continue to make butter to  
 sell at 45c. a pound and the remainder  
 of us ship our cream to the creameries  
 to sell at 60c. a pound, or should we  
 all support a co-operative creamery?"

## SCHOOL A BIG ASSET

In an address on educational mat-  
 ters before the U.F.W.A. convention,  
 the following remarks were made by  
 Mrs. Paul Starr of Taber:

"The public school is the biggest  
 business asset of any democracy, for  
 no democracy can be more intelligent  
 than the mass of its people. The rule  
 of the demagogue and gangster is  
 measured by the number of the ignor-  
 ant."

"I believe that in this crisis when  
 so many hundreds and thousands of  
 people are adopting principles of rad-  
 icalism, bordering upon anarchy, it is  
 vital that every energy of the nation  
 shall be given to the retention in the  
 teaching profession of old, experi-  
 enced and conservative teachers who have  
 some reverence for law and order and  
 right."

## EDUCATIONAL ASSOCIATION

According to an amendment in the  
 Constitution of the Alberta Educa-  
 tional Association made in April, 1920  
 it becomes the privilege of any mem-  
 ber of the Association to send to the  
 Secretary-Treasurer, C. E. Leppard,  
 440-14th St. N.W., Calgary, up to  
 February 1st, nominations for the po-  
 sition of President, 1st Vice-President  
 and 2nd Vice-President. Their nomi-  
 nations must be signed by at least  
 four members of the Association. The  
 names of those nominated shall be  
 printed on ballot papers and sent to  
 all teachers and members in the pro-  
 vince along with the announcement of  
 the convention. The ballots are then  
 to be marked and may be sent to the  
 Secretary by mail with membership  
 fee or brought to the Convention and  
 handed in when registering, but not  
 later than 12 noon on the second day  
 of the convention. The result will be  
 declared on the last day. This gives  
 every member of the association, or  
 whether he attends the convention or

not an opportunity to say who shall  
 be the officers of the association for  
 the ensuing year.

## RE UNEMPLOYMENT

The following letter was received by  
 Mr. Hamilton, manager of the Do-  
 minion Bank here, from Mayor Adams  
 of the city of Calgary, on the question  
 of unemployment which may prove of  
 interest to farmers of this locality:

"As you know we are trying to get  
 some of the unemployed out of the  
 city and on the farms, and the sug-  
 gestion has been made that your  
 Branch managers throughout South-  
 ern Alberta could give us considerable  
 assistance along these lines.

Would it be too much trouble in  
 your correspondence with your branch  
 banks to ask them to forward to the  
 Provincial Employment Bureau here  
 a list of farmers who are in need of  
 men, especially at the present time,  
 with the idea, at least in most cases  
 we suppose, of the wage being small  
 at the present time, but these men  
 would be earning their board and  
 lodgings and perhaps a small wage,  
 but would be in a position to go on  
 with the spring work as soon as it  
 opened up. We would be accomplish-  
 ing a twofold good in taking the un-  
 employed from the city and filling the  
 farmers' wants, especially for spring  
 operations.

We hope that this plan will meet  
 with your approval and co-operation.  
 The question of transportation will  
 perhaps be a serious item in some  
 cases but we will have to find some  
 means of coping with this situation  
 when it arises.

IF AN AEROPLANE SWOOPED  
DOWN

Have you figured out what you  
 would do if you were driving along a  
 road with a nervous horse and an aro-  
 plane from the High River aerodrome  
 suddenly swooped down and frighten-  
 ed the horse into a runaway that  
 smashed your wagon and injured the  
 animal and yourself? Would it com-  
 fort you to learn from your lawyer  
 that we have no laws on aviation and  
 that the statute books are silent on  
 the right to protection and no recom-  
 pense for damages? The question is  
 how would you go about to get sat-  
 isfaction?

## TOPICS OF THE DAY

(From Kincardine Review).

## DON'T OVERLOOK THIS

No, No. Your dollar is not worth  
 a hundred cents even in Canada, if it  
 is used in purchasing an article made  
 in the United States.

## A WISE PRECAUTION

The American balloonists who quar-  
 relled and fought after returning to  
 civilization have buried the hatchet.  
 Probably afraid some disgusted one  
 might use it on both of them.

## UP IN THE AIR

"Flighty" is the word that best de-  
 scribes two of those three balloonists.  
 And Farrell is not one of the two  
 either. He did what any red-blooded  
 man might do under great provoca-  
 tion.

## IN PURSUIT OF LIBERTY

The elector of West Peterboro who

wishes to vote for Ham. Burnham is  
 at perfect liberty to do so. This is a  
 freak country.

## AND THERE YOU ARE

Don't quarrel with anyone. He may  
 turn out to be your best friend. He  
 may turn out to be your worst enemy.

**LOCAL ITEMS**

Quite a number of our citizens took in the Ice Carnival held at Calgary last week and all report having had a good time.

The Leslie Grossmith Company, who was to have put on an entertainment in the Opera House on Wednesday last, had to cancel their engagement on account of sickness.

My wife has gone east for the winter. I wish to meet three or four gentlemen as partners for dancing. Apply Rochon Rooms.

The Vulcan hockey boys intend to put on another dance in the I.O.O.F. Hall on Friday, February 4th. Keep this date open.

Mrs. C. D. Burgan and Mrs. William Burke left last week for their home in Brandon, Manitoba, after a very enjoyable three weeks visit with their brothers, James and W. M. Walker.

Do not fail to attend the Service of Song to be held in the Vulcan Church on Sunday evening, February 5th. Come and bring your friends.

All the curlers who took part in the Calgary bonspiel have now returned home and although none of the rinks were successful in winning any of the prizes they all had a good time.

Dr. D. O. Brown, who left here some time ago for Vancouver, B.C., is now taking a post graduate course at Los Angeles. Mrs. Brown and daughter, who are staying in Vancouver, are now comfortably settled down in their new home.

While in Calgary last week, Gilbert McQueen bought the two lots east of his present location from Lent McKay & Mann and work will be commenced immediately on removal of the Fitzpatrick building which will be placed on them and re-modelled into an up-to-date Jacksmith shop.

F. Bilton will be shipping cattle or hogs on Wednesday, February 9th. Anyone having any for sale will get him at Imperial Hotel on February 7th, 8th and 9th.

The Carnival held at the rink on Monday evening was a great success and was attended by a large crowd. Space will not permit a full report and same is being held over till next week.

Don't get the Band Concert to be held in the Opera House on Sunday evening next after church. The boys aim for a bigger and better band for the coming year and you can help them in this matter by attending these concerts. Collection taken at the door.

The city mail order houses are now making frantic efforts to get the trade of the people of towns' villages, and country districts. The only way

to successfully combat them is to advertise your goods at lowest possible prices in your local paper. This is the physiological time for the home merchant to make a bid for the cash trade that is being transacted now.

Don't forget to attend the boxing match in the Opera House on Friday evening next at 8 o'clock, when Kid Sharpe, of Vulcan meets Andy Russell, of Calgary, in a ten round decision.

The Vulcan skating rink is being well patronized these days and every evening large crowds of people, both young and old, are to be seen gliding over the well kept ice to the strains from a gramophone with a six foot horn which can be heard in any part of the rink.

**ROOMS**—If you are looking for a warm place to sleep try the Rochon Rooms, 75c., \$1.00 and \$1.50 a night, on Main Street, Vulcan.

The pictures shown at the Opera House the past week were of the best, especially "The Great Air Robbery," featuring Locklear, the daredevil flyer, who lost his life some months ago while performing one of his daring feats. "His Bridal Night," featuring Alice Brady in a dual role was also exceptionally good and caused lots of fun. Saturday evening "The Love Burglar," featuring Wallace Reid, a story of the underworld, was a picture also well worth seeing and was enjoyed by all present. The attendance at each show was very good which is ample proof that the management are showing the particular kind of picture that appeals to the people.

**ALSTON NEWS**

A little crowd of about forty people gathered at the home of Mr. Harvey Drummond on Monday, January 17th, to make merry. They were welcomed by their host in right royal style, and a very enjoyable evening was spent in dancing. The crowd dispersed in the early hours of the morning well satisfied with the splendid time they had had. It is to be hoped there will be more surprises in the near future with the same success. A very enjoyable evening was spent at the home of Mr. Wm. Lawrence on

January 19th. The evening was spent in dancing, the music being supplied by a Victrola. Before departing the guests thanked Mr. and Mrs. Lawrence for their kindness in entertaining them.

On Friday last a pie social took place at Alston School. A grand time was had by all present. Miss Maynard acted as manager and Mr. Ohlerson as auctioneer. The pies averaged about \$2.10.

On Friday, January 28th a box social will be held at Alston School in aid of the Alston Ball team. We want to have our boys in the field in uniform this year so everybody come and help. Good music will be supplied.

Miss Flemming left on Saturday morning for her home in Medicine Hat.

Mr. K. Drummond spent the week end in Travis with some well known friends.

**RED CROSS W. I.**

The Red Cross Women's Institute met at the home of Mrs. Ben Graham on Wednesday, January 9th, instead of with Mrs. Snow, on account of the illness of the latter's little daughter, Thora.

Much important business was discussed, coming social functions being the chief items. The main one was the social to be held on Friday, February 11th, at which Mrs. Beauber, of Champion, will speak. There will also be a concert by local amateurs and lunch will be served.

The next meeting will be held at Mrs. Snow's.

**SCHOOL TRUSTEES ATTENTION**

The date on which the School Trustees Convention to be held in Calgary has been changed to February 2nd and 3rd, and the program will be as follows:—"Needs of Education in Alberta Today and the Trustees' Responsibility,"—A. B. Hogg, Lethbridge; "Education From Labor's Standpoint,"—Alex. Ross, M. L. A.; "Aims of Alberta Teachers' Alliance,"—H. C. Newland, Pres. A.T.A.; "The Rural School Problem,"—H. A. Malcolm, Innisfail; "A Live Trustees' Association,"—Wm. Iverach, Ex-Pres. Manitoba Trustees' Association; "The Future of Our Schools,"—Hon. Geo. P. Smith.

**"RED GLOVE"****COMING SOON****"THE VALLEY OF DOUBT"****UNEMPLOYMENT IN THE CITIES**

Premier Meighen's reply to Mayor Church, of Toronto, who recently appealed for aid or employment for that city's unemployed, smacks of courage and sound common sense. The Premier intimates that the big centres that induce men to flock to them in prosperous times, to the disadvantage of smaller communities, must provide for them in times of stress. Any other policy would tend to encourage the drift citywards to the disadvantage of smaller and more wholesome localities.

**ADVANCE SEED GRAIN AGAIN**

The government is making arrangements with the banks for advances to those farmers of the west who lost their crops last year and who are unable to personally finance the purchase of seed grain. It is estimated that the amount of the advances will be about half a million dollars. The advances are to be made only to home-steaders, actually engaged in farming, on the security of their personal notes, the government undertaking to make good in the event of default.

**Farms For Sale**

640 acres north of Vulcan, quarter summerfallow, the Marshall and Trail farm, half mile N.E. of Union Jack School. Price \$45.00 per acre.

320 acres well improved, W. half section 20-19-24-4, one-fourth mile off school. Price \$45.00 per acre, \$3,000 cash, balance easy terms.

1,000 acres adjoining Buffalo School only \$35.00 per acre.

640 acres, 220 acres summerfallow, modern improvements in every respect (Phelan Farm). \$60.00 per acre.

320 acres—S.E. Quarter Section 24-19-23 and N.W. Quarter Section 18-19-23-4 for \$25.00 per acre. 160 acres ready to drill. \$3,000 cash, balance one third crop payments, 6 per cent. interest.

1280 acres near townsite on reserve. \$10,000 worth of improvements. 375 acres summerfallow, farm known as P.C., S.C. land, but is now owned by Bogtie. Cheap at \$47.00 per acre.
